TCS Healthcare Technologies Releases Acuity Connect
Complimentary Webinar to Explore Care Management Collaboration Portal

Auburn, CA / PRWeb / April 1, 2015 – TCS Healthcare Technologies (TCS), a leading provider of software and clinical solutions for the care management and population health arenas, is pleased to announce a webinar focusing on the collaboration portal **Acuity Connect**, which is fully integrated with the **ACUITY** platform.

The webinar, scheduled for April 15, 2015 at 1:30 p.m. ET, will be led by Jeff Frater, RN, BSN, Director of Partner Development at TCS. It will explore the feature-rich portal as well as the importance of an integrated care management system. To register, click here.

Acuity Connect is a bi-directional web-based portal that allows physicians, collaborators and other external users to view a summary of member records, check eligibility, request and receive approvals, engage in secure communication and file sharing, complete assessments, view care plans and collaborate with care team members. This software also features real-time data integration with the **ACUITY Advanced Care** database.

TCS is also pleased to introduce **ACUITY Complete Care**, which will be explored in a webinar scheduled for May 15, 2015 from 1:30-2:30 p.m. ET. **ACUITY Complete Care** provides most of the same rich care management features as the traditional platform but as a cloud-hosted solution for those organizations without robust IT support or a data center infrastructure. To register, click here.

The first webinar in the series took place on March 18, 2015 and focused on **ACUITY Advanced Care Version 7.20.** To access the webinar recording, please click here.

Each presentation in the three-part webinar series will explore the features of the care management software suite as well as the advantages of automation and how **ACUITY** supports the specific needs of case, utilization, disease and population health management programs.

According to TCS Founder and CEO Rob Pock, "We have a passion for care management, which means working with clients throughout the implementation process to provide training, configuration and interfaces that ensure the technology, processes and clinical content meet their needs."

To find out more about these webinars, visit www.tcshealthcare.com or click here to register. A Q&A session will follow each webinar, so don't miss this opportunity to learn more about this premier case management software application.

To learn more about TCS and its suite of care management software products and services, contact Jeff Frater at (530) 314-7073 or jfrater@tcshealthcare.com.
